

**SCHOOL OF ENVIRONMENTAL TECHNOLOGY  
FEDERAL UNIVERSITY OF TECHNOLOGY  
AKURE, NIGERIA**

**AN**

**INTERNATIONAL CONFERENCE**

**ON**

**DATE**

***25TH -27TH OCTOBER, 2010***

**VENUE**

**FRANCIS IDIBIYE AUDITORIUM, FEDERAL UNIVERSITY OF TECHNOLOGY  
AKURE, NIGERIA**

## **INTRODUCTION**

There had been continuous interactions between man and his environment from the primitive times. These interactions had always been in the form of man's adaptation to or changing of his environment. Although the impact that man is making on his environment may result into development and raise the standard of living of people, they also come with different costs and hazards which, if not properly managed, may threaten his own survival. In tune with this, the School of Environmental Technology, Federal University of Technology, Akure 2010 Conference is geared towards providing opportunities for scientists, professionals and technocrats to present the results of their investigations and professional experiences at exploring the challenges posed to man and his environment by technological advancement.

## **CONFERENCE THEME**
